Inventory Comments

This car was originally built and sold new to Alan Jackson. It has the base 7.4 liter engine producing apx 525HP, exhaust and big brakes to stop it. The RENNtech package alone was around \$80,000.00 plus the cost of the car. Serious Inquiries on this one only please. If you do not know RENNtech, visit their web site prior to calling. The price for this car is firm and is \$10,000 less than the cost of the motor alone at RENNtech.

458956-1133362-1812544-0148320-1365258-405537 -The information for travelling on the I-66 is correctly referenced in the Navteq map and is made available to our customers,"said Navteq spokesman Bob Richter. Handheld GPS maker Garmin International spokeswoman Jessica Myers said that the company would never exclude entire roads from its maps, but that its systems do not warn drivers of carpool restrictions or automatically offer to reroute directions to avoid those roads during the affected hours.
