Description...

Up for sale, A Rare on Ebay Original Bosch ABS (anti lock brake) Type 2 Test Box Tool. This is the factory test adapter for ABS 2 systems used in Mercedes , BMW, Volkswagen from 1978 till 1993(most brands using 0 265 controller). Part number KDAS 0003. This is a early version of this tool.Simple unplug the abs controller and plug this in to the car harness. You get to test all in the car. Easily spot open or high resistant speed senders from inside the car. No need to spin the wheel by hand and tug on the wires.Much better than the O.E version which didn't have a built in analog sweep, you had to plug in a separate multimeter. Its in very good condition for the age. Does have some scratches,dust and dirt from use and storage. But it was just tested and works fine.Comes with case and instruction manual. We just don't see these cars anymore and hate just seeing it sit. So its up for sale. These tester are almost non-existent now. There has only been one other for sale in the last 3yrs on ebay. Feel free to ask any questions. Thanks for looking!!
